

Publications

Journals

Coleman N.J., *Aspects of the in vitro bioactivity and antimicrobial properties of Ag⁺- and Zn²⁺-exchanged 11Å tobermorites*, Journal of Materials Science: Materials in Medicine, 20(6) (2009) 1347-1355.

Coleman N.J., Awosanya K., Nicholson J.W., *Aspects of the in vitro bioactivity of hydraulic calcium (alumino)silicate cement*, Journal of Biomedical Materials Research, 90A(1) (2009) 166-174.

Coleman N.J., Bishop A.H., Booth S.E., Nicholson J.W., *Ag⁺- and Zn²⁺-exchange kinetics and antimicrobial properties of 11Å tobermorites*, Journal of the European Ceramic Society, 29 (2009) 1109-1117.

Pawluk K., Booth S.E., **Coleman N.J.**, Nicholson J.W., *The interaction of zinc oxide-based dental cements with aqueous solutions of potassium fluoride*, Journal of Materials Science: Materials in Medicine, 19 (2008) 3035-3039.

Czarneckai B., **Coleman N.J.**, Shaw H., Nicholson J.W., *The use of mineral trioxide aggregate in endodontics – status report*, Dental and Medical Problems, 45 (2008) 5-11.

Pawluk K., Booth S.E., **Coleman N.J.**, Nicholson J.W., *The kinetics of fluoride uptake by immature glass-ionomer dental cements*, Dental Forum, 36 (2008) 11-14.

Coleman N.J., Awosanya K., Nicholson J.W., *A preliminary investigation of the in vitro bioactivity of white Portland cement*, Cement and Concrete Research, 37 (2007) 1518-1523.

Coleman N.J., Bellantone M., Nicholson J.W., Mendham A.P., *Textural and structural properties of bioactive glasses in the system CaO-SiO₂*, Ceramics Silikaty, 51 (2007) 1-8.

Coleman N.J., Brassington D.S., Raza A. and Lee W.E., *Calcium silicate sorbent from secondary waste ash: heavy metals-removal from acidic solutions*, Environmental Technology, 27 (2006) 1089-1099.

Coleman N.J. and Nicholson J.W., *Inorganic glasses and ceramics for bone tissue engineering*, Education in Chemistry, 43 (2006) 156-160.

Coleman N.J., *Interactions of Cd(II) with waste-derived 11 Å tobermorites*, Separation and Purification Technology, 48 (2006) 62-70.

Coleman N.J., Brassington D.S., Raza A., Mendham, A.P., *Sorption of Co²⁺ and Sr²⁺ by waste-derived 11 Å tobermorite*, Waste Management, 26 (2006) 260-267.

Coleman N.J., *Synthesis, structure and ion exchange properties of 11 Å tobermorites from newsprint recycling residue*, *Materials Research Bulletin*, **40** (2005) 2000-2013.

Coleman N.J., Lee W.E., Slipper I.J., *Interactions of aqueous Cu²⁺, Zn²⁺ and Pb²⁺ ions with crushed concrete fines*, *Journal of Hazardous Materials*, **121** (2005) 203-213.

Shtepenko O.L., Hills C.D., **Coleman N.J.**, Brough A.R., *Characterisation and preliminary assessment of a sorbent produced by accelerated carbonation*, *Environmental Science and Technology*, **39**(1) (2005) 345-354.

Bensted J. and **Coleman N.J.**, *The surprising history of cement and concrete from Stone Age origins to 1900 AD*, *L'Industria Italiano Del Cemento*, in English and Italian, **74** (2004) 692-701.

Bensted J. and **Coleman N.J.**, *Cement and concrete – from their Stone Age origins*, *Education in Chemistry*, **41**(5) (2004) 126-129.

Coleman N.J. and Brassington D.S., *Synthesis of Al-substituted 11 Å tobermorite from newsprint recycling residue: a feasibility study*, *Materials Research Bulletin*, **38**(3) (2003) 485-497.

Bensted J. and **Coleman N.J.**, *Cement and Concrete – 7000 BC to 1900 AD*, *Cement-Wapno-Beton*, in English and Polish, **3** (2003) 134-142.

Thomas M.A. and **Coleman N.J.**, *Characterization of a gel-derived silica intended for use as a reference material*, *Colloids and Surfaces A*, **187** (2001) 123-130.

Coleman N.J. and McWhinnie W.R., *The solid phase hydration chemistry of metakaolin-blended ordinary Portland cement*, *Journal of Materials Science*, **35**(11) (2000) 2701-2710.

Bellantone M., **Coleman N.J.** and Hench L.L., *A novel sol-gel derived bioactive glass featuring antibacterial properties*, *Key Engineering Materials*, **192**(1) (2000) 597-600.

Bellantone M., **Coleman N.J.** and Hench L.L., *Bacteriostatic action of a novel four-component bioactive glass*, *Journal of Biomedical Materials Research (Applied Biomaterials)*, **51**(3) (2000) 484-490.

De Diego M.A., **Coleman N.J.** and Hench L.L., *Tensile properties of 45S5 Bioglass® fibres for tissue engineering applications*, *Journal of Biomedical Materials Research*, **53**(3) (2000) 199-203.

Coleman N.J. and Hench L.L., *A gel-derived mesoporous silica reference material for surface analysis by gas sorption. Part 1: Textural features*, *Ceramics International*, **26** (2000) 171-178.

Coleman N.J. and Hench L.L., *A gel-derived mesoporous silica reference material for surface analysis by gas sorption. Part 2: Durability and stability*, *Ceramics International*, **26** (2000) 179-186.

Coleman N.J. and Page C.L., *Aspects of the pore solution chemistry of hydrated cement pastes containing metakaolin*, **27**(1) (1997) 147-154.

Coleman N.J. and Craig D.M., *Modulated temperature differential scanning calorimetry: a novel approach to pharmaceutical thermal analysis*, **135** (1996) 13-29.

Peer-Reviewed Conference Proceedings

Shtepenko O.L., **Coleman N.J.** and Hills C.D., *An innovative approach to the synthesis of sorbent materials for metal fixation*, *Progress in Water Resources*, **8** (2003) 109-117. (2nd International Conference on Water Resources Management, Gran Canaria, April 2003)

Coleman N.J., Johnson D.C., Shtepenko O.L. and Hills C.D., *The stabilisation of aqueous heavy metal species using recycled concrete fines*, 3rd CANMET/ACI International Symposium on the Sustainable Development of Cement and Concrete, Sept. 2001, San Francisco, USA, SP 202-14, pp. 207-224.

Shtepenko O.L., **Coleman N.J.** and Hills C.D., *A novel carbonated calcium aluminosilicate material for the removal of metals from aqueous waste streams*, *Proceedings of 6th International Water Technology Conference*, April 2001, Alexandria, Egypt, pp. 249-254.

Bellantone M., **Coleman N.J.** and Hench L.L., *A novel sol-gel-derived bioactive glass featuring antimicrobial properties*, 13th International Symposium on Ceramics in Medicine/Symposium on Ceramic Materials in Orthopaedic Surgery: Clinical Results in the Year 2000, Nov 22-26, Bologna, Italy, *Bioceramics* **13**, p. 597.

Johnson D.C., **Coleman N.J.**, Lane J., Hills C.D., Poole A.B., *A preliminary investigation of the removal of heavy metal species from aqueous media using crushed concrete fines*, in: G.R. Woolley, J.J.J.M. Goumans, P.J. Wainwright (Eds.), *Waste Materials in Construction*, *Waste Management Series*, **1**, 2000, pp. 1044-1049.

Coleman N.J. and Thomas M.A., *A new gel-derived mesoporous gas sorption reference material: supporting mercury intrusion data*, *Proceedings of 2nd Pacific Basin Conference on Adsorption Science and Technology*, Queensland, May 2000, *Adsorption Science and Technology*, pp. 608-612.

Bellantone M., Xynos I.D., **Coleman N.J.** and Hench L.L., *Bioactivity and biocompatibility of a novel antimicrobial sol-gel-derived glass*, *Transactions of the 6th World Biomaterials Congress*, May 15-20, 2000, Hawaii, USA, p. 1373.
