Congratulations

On behalf of the Royal Borough of Greenwich, it gives me great pleasure to congratulate you on your well-deserved success and your academic achievement. I hope you had a great deal of fun and made some life-long friends on the way.

This is a proud moment for you and your family but it's also a proud moment for the Royal Borough.

I am sure today will just be the first of many such proud successes for you in your life. Please join the Alumni of the university so you can put something back.

I look forward to your Graduation Ceremony at the University of Greenwich in 2026 and hope to meet you in person.

Best wishes for a healthy, happy and successful future. Once again, well done!

Councillor David Gardner
Mayor of the Royal Borough of Greenwich

To all this year's graduates of the University of Greenwich, I extend my heartfelt congratulations on your successful graduation, and I hope today is a stepping stone to many more great achievements in your future lives and careers.

Many of you will have spent time at the university's Medway campus, and I hope you enjoyed our historic heritage sites and became a part of our fantastic communities and strong cultural scene. For my family and many others, Medway has always been a place of aspiration, and that we are home to so many students in higher education strengthens the shared ambitions in our towns. Whatever campus you studied at (and if you didn't study at Medway, you're always welcome to visit us!) our community extends its best wishes.

Of-course, while graduating might be a time of great excitement for the future, it can also be a time of trepidation at stepping out into the wider world. May you take confidence from everything you've learnt in the last few years – in graduating from the University of Greenwich you've given yourself a great start.

Whatever your future plans, take time to celebrate this moment and reflect on your great achievement.

I hope your university days stay with you for the rest of your life, along with the friends you've made here, and I wish you all the best for the future.

Councillor Douglas Hamandishe
Mayor of Medway

Discover how our Employability Service supports graduates

“ The Employability Services at the University of Greenwich played a crucial role in shaping my career journey. From the moment I began exploring opportunities as a student, their expert advice, one-to-one support, and encouragement kept me focused and motivated. Target Connect was more than just a platform to find opportunities—it became central to my development, allowing me to book appointments, access tailored advice, and participate in university-wide events that helped grow my professional network and confidence. Through Target Connect, I secured my initial placement as an Employer Engagement Assistant at the university, gaining hands-on experience and valuable skills with ongoing support from the Employability Service. This ultimately led to securing a graduate role as an Employability Team Administrator, a milestone I’m incredibly proud of. I strongly encourage all students and graduates to take full advantage of the Employability Service and Target Connect, as they are powerful tools for turning ambition into achievement.”

Sreeraj Premarajan
MBA International Business

“ I was delighted to take part in the Greenwich Employability Service’s Mentoring Scheme after I graduated. As I continued my School of Education and pivoted in my aspirations from Digital Marketing towards User Experience Design, I found the need for additional support from a professional who could bring me up to speed in the field. I had heard great things about the Mentoring Scheme at Greenwich and its impressive network, so I didn’t hesitate to apply. I was matched perfectly with a Designer from JPMorgan and I was invited to their offices for an official launch and networking opportunity. It felt great to catch up with familiar faces and make new connections, which made me feel as part of the Greenwich community again.”

“ Having access to Target Connect was extremely helpful for my job hunt. It allowed me to easily check my CV and see if it was tailored to the job description, as well as practice psychometric tests. The fact that I had access to a variety of psychometric tests enabled me to pass the real ones easily and move to the next step of the recruitment process. Ultimately, having access to these psychometric tests was extremely beneficial in securing my graduate role in Auditing, and I would highly recommend future graduates to make use of these platforms.”

Victoire Briatte
BA International Business with Language

Adarsh Anil

Course: MBA International Business, 2023

Job: Junior Research Consultant

“ When I think back to my time at Greenwich, what stands out most is not just the academic side, but the people… That kind of support changes how you see things. It made me realise how important mentorship and community really are. I think a big part of what I gained from Greenwich came from actually engaging with everything that was available, not just focusing on classes. The projects, the people, the small, unexpected moments, they all added up. And even now, those experiences still shape how I approach my work and what I want to do next.”

Jessica Selis

Course: BSc (Hons) Criminal Psychology, 2024

Job: Probation Service Officer

“ I started at Greenwich in 2021, studying Criminology and Criminal Psychology, driven by a dream I had since childhood which was to work in probation… Greenwich gave me the chance to apply what I was learning in real-world contexts, giving me an edge once I graduated… Graduating with a first-class degree was a proud moment. I started applying for roles aligned with my studies and sought support from the Greenwich Careers Service. They helped me create a strong CV and prepare for interviews, which was invaluable. Out of more than 2,000 applicants, I was offered a position as a Probation Service Officer at the Ministry of Justice.”

Vidushii Rajiv Verma

Course: BEng (Hons) Software Engineering, 2025

Further study: Product Management

“ Academically, the Software Engineering course gave me a strong technical foundation in structured problem-solving, programming and systems thinking. Some modules were demanding, but that challenge helped me build discipline and analytical skills that are essential in the technology sector... Beyond lectures, I actively invested in experiences that strengthened my employability and engagement with the university community. I worked in student roles on campus, served as an academic representative, supported and ran societies, participated in hackathons, and engaged with university initiatives.”
