University of Greenwich  
Awards Ceremonies

# Welcome to your graduation ceremony

Today is a moment to celebrate you - everything you have worked for, learned, and achieved. It is the day your hard work pays off, and your time to celebrate with the people who matter most - your friends, family, and loved ones.

Your dedication to your studies, your personal and professional growth, and your own success have been truly inspiring to see.

Your lecturers, tutors, peers, and supporters have all helped you to realise your potential. As a graduate of the University of Greenwich, you now join a global community of alumni who are making a positive impact in the world.

But your journey with us does not end here. Whether you are seeking career advice, considering further study, or simply want to stay connected - we are here for you.

You can join our dedicated LinkedIn group for alumni - a space to stay in touch with the university, network, share insights, and even

mentor others. You also have access to our Employability Service for up to two years. And if you are thinking about continuing your studies, you can apply quickly through Fast Track and explore our extensive funding options which include scholarships and bursaries.

You will find all the details on our website. And we would love to stay in touch — let us know where life takes you next by updating your contact details with our Alumni Team.

We cannot wait to see all that you go on to achieve.

Congratulations, and best of luck for the future.

No matter where life takes you, you will always be part of the Greenwich family.

**Professor Jane Harrington**  
Vice-Chancellor and CEO,  
University of Greenwich

*“Congratulations  
on your graduation!”*

# The Rt Hon the Lord Boateng

CVO DL, Chancellor

It is a great honour to celebrate this milestone with you. Today marks the culmination of your hard work, determination and resilience, and I am proud to join your families, friends, teachers and supporters in applauding your achievements.

Graduation is not only a time to reflect on all that you have accomplished but also to look forward to the future. You are now part of a global community of University of Greenwich alumni – individuals who have walked across the stage just as you have, and who have gone on to make their mark across every corner of society.

As you leave the university, you carry with you the knowledge, skills, friendships and values that have shaped your time at Greenwich. These are the tools that will support you through the challenges ahead and the foundation on which you will build your career, your aspirations, and your contributions to the world.

You graduate in a time of immense possibility, but also of real challenges. Now more than ever, we need graduates who are not

only capable and curious, but courageous, compassionate and resilient. I believe that each and every one of you has the potential to lead, to inspire, and to make a difference.

At the University of Greenwich, our values of inclusivity, collaboration and impact are central to who we are. I encourage you to carry these with you and let them guide your actions and ambitions.

Wherever your journey takes you, know that you will always be an important part of our Greenwich community. We want to hear about your next steps and future endeavours, so please do stay in touch.

Well done for all that you have achieved so far. I wish you every success and happiness in the future.

**Paul**

# Congratulations

To all this year's graduates of the University of Greenwich, I extend my heartfelt congratulations on your successful graduation, and I hope today is a stepping stone to many more great achievements in your future lives and careers.

Many of you will have spent time at the university's Medway campus, and I hope you enjoyed our historic heritage sites and became a part of our fantastic communities and strong cultural scene. For my family and many others, Medway has always been a place of aspiration, and that we are home to so many students in higher education strengthens the shared ambitions in our towns. Whatever campus you studied at (and if you didn't study at Medway, you're always welcome to visit us!) our community extends its best wishes.

Of course, while graduating might be a time of great excitement for the future, it can also be a time of trepidation at stepping out into the wider world. May you take confidence from everything you've learnt in the last few years - in graduating from the University of Greenwich you've given yourself a great start.

Whatever your future plans, take time to celebrate this moment and reflect on your great achievement.

I hope your university days stay with you for the rest of your life, along with the friends you've made here, and I wish you all the best for the future.

**Cllr Trevor Clarke**  
Mayor Of Medway

On behalf of the Royal Borough of Greenwich, it gives me great pleasure to congratulate you on your well deserved success and your academic achievement.

I hope you have had lots of fun and made some wonderful friendships on the way.

This is such a proud moment for you and your family, but it is also a really proud moment for the Royal Borough.

I understand how thrilled you must be at this moment, as I am also a graduate of the University of Greenwich .

I have since spent my whole career in teaching and education, for the most part in Royal Greenwich.

It is a wonderful place to live, work and grow, so I hope you will seriously consider staying with us.

During your studies, you will have shown resilience and perseverance, qualities which will serve you well for the journey ahead.

You have also worked hard, and used your talent, drive and initiative to achieve this goal.

So my congratulations to you all.

I sincerely hope you will join the Greenwich University Alumni, and thereby put something back into this wonderful establishment.

I wish you best wishes for a healthy, happy and successful future. Well Done !

**Councillor Linda Bird**  
Mayor of Royal Borough of Greenwich

## July 2025

Chenming (Ming) Bao  
Colin Crooks MBE  
Michael Fuller QPM  
Tony Hales CBE  
Eleanor Lisney  
Steve Malkin  
Carol-Ann Murray  
Kam Keung Pong  
Dr Alan Ryder  
Professor Lateef Sanni

## Chenming (Ming) Bao

Ming completed his undergraduate study at the University of Greenwich in 2002, graduating with a DipHE award. He established Achieve Education in the same year, with the aim of recruiting Chinese students to the university. He has worked with us ever since, acting as an unparalleled ambassador for our institution and developing innovative collaborative models that have transformed our international student partnerships.

Ming's leadership has been instrumental in creating and coordinating partnerships with numerous Chinese universities over the past two decades, delivering over 500 students

annually to our programmes. He has skilfully navigated complex Ministry of Education legal frameworks, coordinated relationships with British Council representatives, and effectively established the University of Greenwich as a premier destination for international students in the largest market for UK international education.

His entrepreneurial spirit and dedication have not only expanded our international reach but have also provided countless opportunities for students seeking world-class education.

## Colin Crooks MBE

Colin studied Environmental Conservation at the University of Greenwich, setting the foundations for him to achieve success as an award-winning social entrepreneur and environmental champion.

While at Greenwich, Colin established the environmental consultancy 3Re, pioneering innovative approaches including payment-by-results waste consultancy. He went on to establish the social enterprise Green-Works, creating employment opportunities for hundreds of previously unemployed people, while repurposing and recycling 47,000 tonnes of furniture. For this, Colin won the Queen's Award for Enterprise (Sustainable Development) in 2009.

His involvement with organisations like the London Community Resource Network, Tree Shepherd, and most recently as a Board Trustee for Locality and the London Cycling Campaign reflects his understanding that meaningful change requires sustained, multi-faceted engagement across society.

Colin was awarded an MBE in the 2019 New Year's Honours for services to disadvantaged people and the environment.

## Michael Fuller QPM

Throughout his career in policing, Michael demonstrated remarkable creativity and effectiveness in addressing complex crime issues. Following the Stephen Lawrence Inquiry in 1998, Michael helped establish the Racial and Violent Crime Task Force and developed the Metropolitan Police action plan in response to the Macpherson Inquiry's criticisms.

His leadership in this challenging area demonstrated his commitment to addressing systemic issues in policing diverse communities. He was also the founding chair of the Met Police Black Police Association, set up to support black and Asian police officers who had been victims of discrimination.

In January 2004, Michael was appointed Chief Constable of Kent Police, making history as the first (and so far, only) ethnic minority chief constable in the UK, and the first black officer to reach chief constable-equivalent rank. During his tenure as Chief Constable, Michael also qualified as a barrister and was called to the Bar at Lincoln's Inn in July 2007.

His contributions to public service were recognised with the Queen's Police Medal for distinguished police service

## Tony Hales CBE

Tony Hales is a business leader, advocate for heritage conservation, and dedicated cultural champion. His efforts to preserve historical treasures, promote cultural engagement, and create meaningful educational spaces have transformed the Greenwich landscape.

Tony served as Chair of The Greenwich Foundation for the Old Royal Naval College from 2014 to 2023, transforming it into one of the UK's leading visitor attractions and curating a diverse cultural and educational space for our community.

He was instrumental in work to conserve the Painted Hall and restore it to its full glory. This project led to the Painted Hall winning

the Gold Award for Large Visitor Attraction of the Year at the Visit England Awards for Excellence in 2020.

Tony is also the Chair of the Associated Board of the Royal Schools of Music (he is learning the saxophone) and is a Trustee of British Forces Broadcasting. Tony continues to act as Trustee of the Royal Museums Greenwich Foundation and Unit President of the Greenwich Deptford and Rotherhithe Sea Cadets Unit, demonstrating his dedication to our local community. He was awarded a CBE for services to the armed forces in 2008.

## Eleanor Lisney

Eleanor is a disability rights campaigner, public speaker, trainer, cultural adviser, podcaster and writer. Through her work as the co-founder and co-director of Culture Access (a collective of Deaf and disabled people) and Sisters of Frida (a disabled women's collective), Eleanor creates vital platforms for disabled voices.

Her advocacy has influenced legislation, including the Serious Crime Act, and her expertise was recognised internationally when she was invited to address the European Parliament in Brussels on violence against disabled women.

Within Greenwich, Eleanor pioneered Greenwich's first disability culture festival and collaborated on research into the lived experiences of disabled and minoritised people. Her work has resulted in Greenwich's first co-produced disabled community group, the creation of an accessible cookbook, and the production of a co-created artwork that has been formally acknowledged by Greenwich Council for its impact on local community and policy-making.

## Steve Malkin

Steve's academic foundation began at Thames Polytechnic (now the University of Greenwich) in civil engineering, giving him the problem-solving mindset that would define his approach to sustainability challenges.

He went on to found Planet Mark, a leading force in the promotion and delivery of net zero initiatives across the UK. As a partner to the Eden Project, Planet Mark has built an impressive community of over 800 businesses committed to sustainable practices throughout the UK and around the world.

Planet Mark supports our own sustainability journey at Greenwich by undertaking our annual carbon validation and has inputted into our Net Zero Plan.

Together, we also collaborate on graduate employment opportunities and the development of more sustainable teaching methodologies, demonstrating Steve's commitment to equip the next generation with the knowledge and skills they will need to drive forward meaningful environmental change.

## Carol-Ann Murray

As a mental health nurse, Carol-Ann has spent most of her career championing the mental health and wellbeing of children and vulnerable populations in South East London. She is currently the Associate Director, Learning Disability, Autism and SEND at the NHS South East London Integrated Care Board where her experience and skills benefit people in Greenwich and beyond.

Carol-Ann's work with the university has been instrumental in advancing policy agendas and delivering change in the Royal Borough of Greenwich. Her leadership role in establishing the Public Health strategy for Greenwich Borough to promote mental health and targeted action for higher risk groups has had

a significant impact, and initiatives such as "Greenwich Time to Talk" have provided crucial support for people with stress, anxiety, and other health issues within our community.

Carol-Ann has worked with the university's Centre for Research in Language and Heritage since 2019, where she has been vital in bridging the gap between academia, education and healthcare professionals. As a Member of the Advisory Board of the Institute of Inclusive Communities and Environments, she continues to drive work related to social justice and the promotion of inclusion across communities.

## Kam Keung Pong

Professor Kam Keung Pong is a distinguished academic, environmental advocate, and industry leader whose multidisciplinary expertise has significantly shaped Hong Kong's construction and sustainability landscape.

A graduate of Thames Polytechnic (now the University of Greenwich), he holds five degrees spanning surveying, law, planning, and governance.

Professor Pong is currently Executive Director and Company Secretary of Sundart Holdings Ltd, having previously served for nine years as Chief Prosecution Officer for Hong Kong's Environmental Protection Department. There, he established himself as a leading figure in environmental law enforcement and sustainable development policy.

He also serves in leadership roles across professional bodies, including the Professional Green Building Council, the Environment Professional Group, and the Royal Institution of Chartered Surveyors Hong Kong branch. As Adjunct Professor at Hong Kong University of Science and Technology, Professor Pong work has advanced more sustainable approaches to construction within Hong Kong and beyond.

## Dr Alan Ryder

In 1989, Dr Ryder established RSK to provide specialised advice on applying new environmental standards to cross-country pipelines. From this focused beginning, he has guided the company for over three decades, overseeing its evolution into a comprehensive network of more than 200 environmental and engineering businesses operating globally with over 15,000 employees.

What distinguishes RSK is not just its scale but the breadth and depth of its contributions to global sustainability challenges. The company works with more than 18,000 clients across 40 countries, in sectors including water, energy, food and drink, infrastructure, urban development, mining, and waste management.

The breadth of RSK's expertise offers our students incredible access to industry knowledge that shapes curriculum development, provides employment and internship opportunities, delivers financial support, and offers expert mentoring and guest lectures. This comprehensive engagement creates an ecosystem of learning and development that prepares our graduates to address the complex sustainability challenges of our time.

## Professor Lateef Sanni

Professor Lateef Sanni is a globally recognised food scientist and academic leader whose groundbreaking research on tropical root crops has advanced food security across Africa.

Born in Nigeria, Professor Sanni conducted his doctoral research at the University of Greenwich's Natural Resources Institute, marking the start of a three-decade relationship with the university.

His influence extends well beyond Nigeria through his significant international roles, including his work as Post-Harvest Scientist at the International Institute of Tropical Agriculture, Country Manager for the CAVA Nigeria partnership (with the University of Greenwich), and most recently as Executive Director of the Nigerian Stored Products Research Institute.

Professor Sanni's contributions have earned him numerous recognitions, including fellowship of the Nigerian Academy of Science and the Omoluabi Royal ICON Award. Currently, he chairs the Steering Committee of African Women in Agricultural Research and Development while also the President of the International Society for Tropical Root Crops. He continues to serve at the University of Greenwich as a visiting professor.

## Take control of your career

As a recent graduate, you can access free support from the Employability Service team for up to two years after completing your studies. [Our Target Connect platform](#) - your one-stop shop for accessing coaching appointments, events, graduate jobs and more remains a very important tool. Support is here, as you navigate your career: [Careers | University of Greenwich](#)

## Discover how our Employability Service supports graduates

*“The Employability Services at the University of Greenwich played a crucial role in shaping my career journey. From the moment I began exploring opportunities as a student, their expert advice, one-to-one support, and encouragement kept me focused and motivated. Target Connect was more than just a platform to find opportunities—it became central to my development, allowing me to book appointments, access tailored advice, and participate in university-wide events that helped grow my professional*

*network and confidence. Through Target Connect, I secured my initial placement as an Employer Engagement Assistant at the university, gaining hands-on experience and valuable skills with ongoing support from the Employability Service. This ultimately led to securing a graduate role as an Employability Team Administrator, a milestone I’m incredibly proud of. I strongly encourage all students and graduates to take full advantage of the Employability Service and Target Connect, as they are powerful tools for turning ambition into achievement.”*

Sreeraj Premarajan  
MBA International Business

*“I was delighted to take part in the Greenwich Employability Service’s Mentoring Scheme after I graduated. As I continued my education and pivoted in my aspirations from Digital Marketing towards User Experience Design, I found the need for additional support from a professional who could bring me up to speed in the field. I had heard great things about the Mentoring Scheme at Greenwich and its impressive network, so I didn’t hesitate to apply. I was matched perfectly with a Designer from JPMorgan and I was invited to their offices for an official launch and networking opportunity. It felt great to catch up with familiar faces and make new connections, which made me feel as part of the Greenwich community again.”*

Djeylan Karadayi  
BA Advertising and Digital Marketing Communications

*“ Having access to Target Connect was extremely helpful for my job hunt. It allowed me to easily check my CV and see if it was tailored to the job description, as well as practice psychometric tests. The fact that I had access to a variety of psychometric tests enabled me to pass the real ones easily and move to the next step of the recruitment process. Ultimately, having access to these psychometric tests was extremely beneficial in securing my graduate role in Auditing, and I would highly recommend future graduates to make use of these platforms.”*
